- Fusion Monorail & System Hardware
 - LED Generator [Red]
 - Lava II pendant

LBL + LED = Endless Colorful Options

LBL Lighting takes lighting to a new aesthetic level by combining elegant hand-bendable Fusion Monorail with a brilliant band of colored light. State-of-the-art LEDs send brilliant light through the center of our Monorail. Each LED only uses 3 watts of energy, and a 30' run glows brightly with two generators. System is fully dimmable and compatible with a wide range of colorful low-voltage heads and pendants

For more information see our latest Catalog 47 or visit us at lblighting.com.
